Financial Standard's [Power50](#) list is made up of the 50 most influential financial advisers in Australia according to the readers of Financial Standard and FS Advice - The Australian Journal of Financial Planning. In the making of this list, they define 'influential' as individuals who have been or continue to be, instrumental in shaping the future of the financial advice industry.

Capital Partners Private Wealth, founder and CEO – [David Andrew](#), was recently named as one of the 50 most influential financial advisers in Australia - for the second year running. This award recognised Davids' active participation in industry-based activities, community projects and/or other initiatives designed to promote the important role that financial advisers play in Australia's socio-economic future. *"The FPA Power50 winners are a diverse group. Some specialise in responsible investment advice, some provide financial advice to specific professions, and some focus on addressing market gaps, be it financial advice for women or the LGBTQI community. But they all have one thing in common; they wield influence that can create the blueprint for financial advice in the future. Not all of them are familiar names, but just because they are not making a lot of noise doesn't mean they are not making waves".*
