## IMPORTANT INFORMATION

This Product Disclosure Statement ('PDS') is a summary of significant information about the Dimensional World Allocation 50/50 Trust ARSN 162 758 081 ('Trust'). It contains references, marked with a [!], to other important information in the Additional Information Guide. The Additional Information Guide is a separate document that forms part of this PDS. These documents are available from [www.dimensional.com.au/other/product-disclosure-statement.aspx](http://www.dimensional.com.au/other/product-disclosure-statement.aspx) or you can request a copy free of charge by contacting Dimensional. You should consider this information before making a decision about the Trust. The information provided in this PDS is general information only and does not take account of your personal financial situation or needs. You should obtain financial advice tailored to your personal circumstances.

Information in this PDS is current at its issue date and may change from time to time. Information that is not materially adverse to investors may be updated by us by placing this information on our website. Updated information can be obtained by going to our website or calling us. You may request a paper copy of any updated information, free of charge. If there are any materially adverse developments, Dimensional will issue a new PDS as required by law.

All dollar amounts are in Australian dollars unless otherwise indicated. The offer of units under this PDS is only available to persons receiving this PDS (electronically or otherwise) in Australia or New Zealand. If you are a New Zealand-based investor, please ensure you read the 'Warning statement for New Zealand investors only' in the Additional Information Guide. The offer does not constitute an offer in any other country. In particular, units in the Trust are not intended to be offered or sold to US Persons as defined under Regulation S of the US federal securities laws. Neither Dimensional nor any other entity associated with Dimensional guarantees the repayment of capital from or the performance of the Trust or any specific rate of return from the Trust.

## 1. ABOUT DIMENSIONAL

DFA Australia Limited ('Dimensional') is the Responsible Entity of the Trust. As Responsible Entity, Dimensional is responsible for the administration and investment management of the Trust.

Dimensional is a wholly owned subsidiary of US-based Dimensional Fund Advisors LP. The affiliated entities of Dimensional manage funds on behalf of investors around the world from offices in the United States, Europe, Asia and Australia.

For more than three decades, Dimensional Fund Advisors LP and its subsidiaries and affiliates have been combining rigorous academic research with practical experience to deliver real-world investment solutions. Using this approach, Dimensional seeks to deliver investment solutions that add value through careful design, implementation and execution.

Dimensional established its Australian office in 1994 and began offering investment solutions to local investors with the opening of the Dimensional Wholesale Trusts in 1999.

## 2. HOW THE TRUST WORKS

The Trust is structured as a unit trust registered as a managed investment scheme. When you invest your money in the Trust you are issued units in the Trust and your money is pooled together with other people's money. We use this pool of money to buy investments and manage them on behalf of all investors.

You can invest in the Trust either directly, or indirectly through an Investor Service. An Investor Service refers to an investor-directed portfolio service ('IDPS'), IDPS-like scheme, master trust, wrap account or a nominee or custody service (see Investing through an Investor Service below). Dimensional may require, as a condition of accepting your initial or any additional applications, that you first receive advice on any proposed investment from a Participating Adviser, being an adviser who has participated in educational programs conducted by Dimensional about its investment philosophy and approach (see section 1 of the Additional Information Guide for further details) (! See below).

The Trust is one of several trusts managed and offered by Dimensional, called the Dimensional Wholesale Trusts. The Dimensional Wholesale Trusts invest across a broad range of asset classes, including Australian and international equities, and fixed interest securities. A product disclosure statement for each Dimensional Wholesale Trust is available and can be obtained from our website or by contacting Dimensional. You should consider the relevant product disclosure statement in deciding whether to acquire or continue to hold an investment in a Dimensional Wholesale Trust and consult with your Participating Adviser to construct a portfolio that is appropriate for your requirements.

### Investing directly in the Trust

When you invest directly in the Trust you are issued a number of units in the Trust based upon the amount invested and the current unit price. Your units represent your proportionate share of the Trust and reflect the value of your investment. As a result, each unit has a dollar value or 'unit price'. The unit price will vary as the market value of assets in the Trust rises or falls. Unit prices are available from [www.dimensional.com.au](http://www.dimensional.com.au).

Subject to the minimum requirements in the following table, you can increase your investment at any time by applying for more units and decrease your investment by transferring or withdrawing some of your units (including switching to another Dimensional Wholesale Trust).

Minimum Requirements*	
Initial investment	\$1,000,000
Additional investment	\$10,000
Withdrawal	\$10,000
Switch	Nil
Transfer	Nil
Account balance	\$1,000,000

\* If you are investing in the Trust through an Investor Service, the minimums detailed above may not apply. Refer to 'Investing through an Investor Service' below.

In each case, Dimensional may accept a lesser amount at its discretion.

Withdrawal proceeds will usually be paid by electronic transfer within three to seven business days of receipt of the withdrawal notice. The Constitution allows up to 30 days.

In some circumstances, such as if withdrawals were suspended, you may not be able to withdraw your funds within the usual period upon request. Information about Liquidity Risk is found in section 4 of this PDS.

### Investing through an Investor Service

If you invest in the Trust through an Investor Service, you may be subject to different terms and conditions from those referred to in this PDS. It is the operator of the Investor Service that invests for you that has the rights of a direct investor, and they may choose to exercise these rights in accordance with their arrangements with you. You will need to contact the operator of the service for details of how to invest in or request a withdrawal from the Trust. You do not need to complete any of our forms.

! You should read the important information about the acquisition and disposal of interests before making a decision. Go to section 1 of the Additional Information Guide located at [www.dimensional.com.au/other/product-disclosure-statement.aspx](http://www.dimensional.com.au/other/product-disclosure-statement.aspx). The material relating to the acquisition and disposal of interests may change between the time when you read this PDS and the day when you sign the application form.

### Frequency of distributions and how they are calculated

The Trust may earn income, such as dividends, interest on investments and trust distributions, realised gains or losses on the sale of investments and profits and losses from currency hedges. The Trust will normally distribute an amount, determined as appropriate by Dimensional, to each unit holder on a half-yearly basis, based on the number of units held as at the end of the distribution period. In some situations, distributions may be paid at other times.

These distributions are normally paid within two weeks after the end of the distribution period. The distributions made at the end of June (the Trust's financial year end) will include income up to the end of June. Realised net capital gains and realised net gains from currency hedges in respect of a financial year will usually only be distributed at the end of that financial year. The amount and components of a distribution will vary from period to period. There may be periods when the Trust does not make a distribution. Income distributions from Trusts using currency hedges may be more volatile than distributions from Trusts with no currency hedge. There may be periods where distributions for a Trust or hedged class of units are small (or nil) where the currency hedge produces losses, or where there are accumulated hedge losses from prior periods.

If you invest in the Trust through an Investor Service, you should contact the operator of the service to find out how any income distributions are paid to you.

### 3. BENEFITS OF INVESTING IN THE TRUST

#### Significant features

The Trust seeks to provide long-term capital growth by gaining exposure to a diversified portfolio of securities. The Trust will seek to target approximately 50% exposure to equities and 50% exposure to fixed interest assets. Normally, the Trust will gain some or all of its exposure by investing in other funds managed by the Dimensional Group. The portfolio emphasises investment in securities with a higher expected return (see section 5 of this PDS for details).

#### Significant benefits

An investment in the Trust offers investors a range of key benefits:

- The investment strategy is grounded in rigorous academic research.
- The Trust's asset allocation is monitored and rebalanced by Dimensional.
- The investment strategy will provide continuous exposure to a professionally managed portfolio of securities.
- The investment strategy is diversified to manage risk. Diversification also provides flexibility, which in turn allows for more efficient implementation of the portfolio.
- Dimensional seeks to keep costs low by paying close attention to costs, including both management and implementation costs.
- Direct investors receive regular investment statements and an annual tax statement to keep you up-to-date on your investment.
- For the taxable investor, Dimensional seeks to maximise after-tax returns. It does this by managing the Trust in a way that aims to defer the realisation of net capital gains where possible and to manage dividend income.

! You should read the important information about these and other features and benefits of the Trust before making a decision. Go to section 3 of the Additional Information Guide located at [www.dimensional.com.au/other/product-disclosure-statement.aspx](http://www.dimensional.com.au/other/product-disclosure-statement.aspx). The material relating to these and other features and benefits of the Trust may change between the time when you read this PDS and the day when you sign the application form.

### 4. RISKS OF MANAGED INVESTMENT SCHEMES

All investments carry risk. Different strategies may carry different levels of risk, depending on the assets that make up the strategy. Assets with the highest expected long-term returns may also carry the highest level of short-term risk. It is important to understand that:

- The value of the investments will go up and down.
- Investment returns (even over the long term) are not guaranteed and you may lose money on any investment you make.
- The level of returns will vary and future returns may differ from past returns.
- Laws affecting registered managed investment schemes may change in the future, and
- The level of risk for each person will vary depending on a range of factors including: age, investment time frames, where other parts of your wealth are invested and your risk tolerance.

The significant risks of the Trust are summarised below, but these risks are not exhaustive and there could be other risks that may adversely affect the Trust.

#### Market risk

Economic, political, and other factors may cause the overall investment market to fall in value. A fall in the market may lead to a decrease in the price of securities held by the Trust irrespective of the merits or otherwise of the individual securities.

#### Security risk

This is the risk attributed to the circumstances of an individual security. It can relate to management, operational, product, industry and other factors. Even if the Trust is well diversified, falls in the price of an individual security may affect the value of your investment.

#### Liquidity risk

Sometimes, when securities are not traded frequently or in large amounts or when market conditions are difficult, buying interest can dry up. This can make it hard for investors to sell securities at short notice and at a desired price. In periods of illiquidity, Dimensional may not be able to sell securities to pay withdrawal requests by you. If the Trust becomes illiquid within the meaning of the Corporations Act, Dimensional may suspend withdrawals.

#### Credit risk

The market value of fixed interest securities in the Trust could fall if the issuer or any guarantor of a security is unable or unwilling to make timely principal and/or interest payments. Also, the perception of increased risk of a default could lower the value of the securities. Securities are subject to varying degrees of credit risk, which are often reflected in credit ratings. Bonds are subject to the risk that litigation, legislation or other political events, local and/or global business or economic conditions, or the bankruptcy of the issuer could have a significant effect on the issuer's ability to make payments of principal and/or interest. Credit quality criteria are applied at the time of purchase. The Trust may continue to hold securities that are no longer eligible for additional investment because, for example, credit quality has fallen below the criteria specified for the Trust.

### **Term risk**

Term risk refers to the risk of investing in fixed interest securities such as bonds that mature in the future. In general, the longer the time until a bond matures, the more its price may fall due to changes in interest rates, inflation, supply and demand, risk aversion and other factors.

### **Currency risk**

The value of investments denominated in a currency other than Australian dollars is affected by changes in the Australian dollar in relation to the value of the foreign currency in which the investment is denominated. When the value of the Australian dollar falls in relation to the value of the foreign currency, then the value of the foreign investments rises. When the value of the Australian dollar rises, the value of foreign investments falls. Foreign currency exposure is unhedged except to the extent the Trust invests in underlying investments such as hedged class units and other Fixed Interest Trusts which hedge foreign currency exposure, as stated in section 5 of this PDS.

### **Fund of funds risk**

As the Trust may be invested in other funds managed by the Dimensional Group (including other Dimensional Wholesale Trusts), the investment performance of the Trust will be affected by the investment performance of the underlying funds. Through its investments in the underlying funds, the Trust will be subject to the risks of the underlying funds' investments.

### **Real estate industry risk**

The value of securities in the real estate industry may be affected by changes in real estate values and rental income, property taxes, interest rates, and tax and regulatory requirements. Real Estate Investment Trusts (REITs) and REIT-like entities are subject to the possibility of failing to qualify for tax free pass through of income. The Trust (which may invest in these securities) may at times underperform other funds that use other investment strategies.

### **Regulatory risk**

Regulatory risk arises from regulatory or taxation changes introduced by a government or a regulator, which may affect the value of securities in which the Trust invests. These regulatory or taxation changes may occur in Australia or other countries in which the Trust invests.

### **Derivatives risk**

Derivatives are financial instruments the value of which is derived from an underlying asset, rate or index. They may be used in the Trust to manage risk or gain exposure to markets, although they carry risks of their own. These include liquidity risk, market risk and counterparty risk. Changes in the value of a derivative may not correlate perfectly with the underlying asset, rate or index. Hedging with derivatives may increase expenses, and there is no guarantee that a hedging strategy will work. While hedging can reduce or eliminate losses, it can also reduce or eliminate gains or cause losses if the market moves in a manner different from that anticipated by the Trust or if the cost of the derivative outweighs the benefit of the hedge.

### **Counterparty risk**

The Trust's trading counterparties may become insolvent or otherwise not meet their obligations to the Trust which may affect the value of your investment.

### **Strategy risk**

The Trust's investment strategy, as described in section 5 of this PDS, may mean that the Trust performs differently from the market as a whole. The Trust may at times underperform funds that use other investment strategies.

### **Trust risk**

Results from investing in the Trust, including tax outcomes, may differ from investing directly in the underlying securities. The actions of other unit holders, such as applications or redemptions, may have an impact on your share of tax credits, income, and net capital gains distributed by the Trust. Dimensional could be replaced as the responsible entity or the manager, or the Trust could terminate.

### **Operational risk**

This refers to a range of risks associated with the operation of the Trust and includes human error, systems breakdown, external threats and other factors beyond Dimensional's control.

### **Securities lending risk**

Dimensional may lend securities for the purpose of generating additional income for the Trust. There is the risk that a borrower may fail to return the securities in a timely manner or at all. There is also a risk of financial loss associated with the investment of cash collateral on behalf of the Trust (see Counterparty risk). In such events, the Trust could experience delays in recovering assets and may incur a capital loss.

### **Cyber security risk**

Dimensional and its service providers' use of internet, technology and information systems may expose the Trust to potential risks linked to cyber security breaches of those technological or information systems. Cyber security breaches, amongst other things, could allow an unauthorised party to gain access to proprietary information, customer data, or Trust assets, or cause Dimensional and/or its service providers to suffer data corruption or lose operational functionality.

### **Emerging markets risk**

The Trust exposes investors to additional risks beyond risks associated with investing in developed international markets. These additional risks include significantly greater price volatility than developed markets, less liquidity, more government intervention in the economy, greater political uncertainty (including less certain tax policies) and less government supervision and regulation of securities markets and participants in those markets. Stock markets in many emerging market countries are relatively small, expensive to trade in and risky. Foreigners are often limited in their ability to invest in, and withdraw assets from, these markets.

**If some or all of these risks materialise, the value of your investment in the Trust may go down.**

## 5. HOW WE INVEST YOUR MONEY

**Please note:** You should consider the likely investment return, the risk and your investment timeframe when choosing an investment in the Trust.

<p><b>Investment return objective</b></p>	<p>To provide a total return, consisting of capital appreciation and income, by gaining exposure to a diversified portfolio of companies and real estate securities listed on approved developed and emerging markets, and domestic and global fixed interest securities. The Trust will seek to target approximately 50% exposure to equities and 50% exposure to fixed interest assets.</p> <p>The Trust is not managed with the objective of achieving a particular return relative to a benchmark index. However, to compare the performance of the Trust with a broad measure of market performance, reference may be made to a combination of market indices based on the strategic asset allocation of the trust. For further details please refer to <a href="http://www.dimensional.com.au">www.dimensional.com.au</a>.</p> <p>Investors should note that the composite index is referred to for comparison purposes only. The performance of the Trust may differ significantly from the index.</p>																									
<p><b>Strategic asset allocation</b></p>	<p>Under normal circumstances, the Trust will invest in accordance with the following target allocation range*:</p> <table border="1" data-bbox="469 658 1428 1173"> <thead> <tr> <th></th> <th>Asset Class</th> <th>Underlying funds<sup>1</sup></th> <th>Target Allocation Range<sup>1</sup></th> </tr> </thead> <tbody> <tr> <td rowspan="4" style="writing-mode: vertical-rl; transform: rotate(180deg);">EQUITIES</td> <td>Australian Equities</td> <td>Dimensional Australian Core Equity Trust</td> <td>8-28%</td> </tr> <tr> <td>International Equities – Developed Markets</td> <td>Dimensional Global Core Equity Trust AUD hedged class units and unhedged class units</td> <td>15-35%</td> </tr> <tr> <td>International Equities – Emerging Markets</td> <td>Dimensional Emerging Markets Trust</td> <td>0-8.5%</td> </tr> <tr> <td>Real Estate Securities</td> <td>Dimensional Global Real Estate Trust<sup>2</sup></td> <td>0-8.5%</td> </tr> <tr> <td rowspan="3" style="writing-mode: vertical-rl; transform: rotate(180deg);">FIXED INTEREST</td> <td>Cash</td> <td>Dimensional Short Term Fixed Interest Trust</td> <td>0-10%</td> </tr> <tr> <td rowspan="2">Fixed Interest</td> <td>Dimensional Global Bond Trust Dimensional Five-Year Diversified Fixed Interest Trust</td> <td rowspan="2">35-55%</td> </tr> <tr> <td>Dimensional Two-Year Diversified Fixed Interest Trust</td> </tr> </tbody> </table> <p>1. As at the date of this PDS. 2. The Trust may obtain additional exposure to real estate securities through investment in the Dimensional Australian Core Equity Trust and Dimensional Global Core Equity Trust.</p>		Asset Class	Underlying funds <sup>1</sup>	Target Allocation Range <sup>1</sup>	EQUITIES	Australian Equities	Dimensional Australian Core Equity Trust	8-28%	International Equities – Developed Markets	Dimensional Global Core Equity Trust AUD hedged class units and unhedged class units	15-35%	International Equities – Emerging Markets	Dimensional Emerging Markets Trust	0-8.5%	Real Estate Securities	Dimensional Global Real Estate Trust <sup>2</sup>	0-8.5%	FIXED INTEREST	Cash	Dimensional Short Term Fixed Interest Trust	0-10%	Fixed Interest	Dimensional Global Bond Trust Dimensional Five-Year Diversified Fixed Interest Trust	35-55%	Dimensional Two-Year Diversified Fixed Interest Trust
	Asset Class	Underlying funds <sup>1</sup>	Target Allocation Range <sup>1</sup>

	Fixed Interest	Dimensional Global Bond Trust Dimensional Five-Year Diversified Fixed Interest Trust	35-55%																							
		Dimensional Two-Year Diversified Fixed Interest Trust																								
<p><b>Description of Trust</b></p>	<p>The Trust may suit those investors seeking exposure to a diversified portfolio with similar exposure to equity and fixed interest assets. Investors in this Trust will be exposed to share market volatility.</p> <p>Normally, the Trust will gain some or all of its exposure by investing in other funds managed by the Dimensional Group (including other Dimensional Wholesale Trusts) that invest in equity, real estate and fixed interest securities. As at the date of this PDS, the Trust will seek to target approximately 50% exposure to equities (including real estate securities) and 50% exposure to fixed interest (including cash), as set out in the table above. The actual exposure may vary from the target exposure due to trading, portfolio management or market considerations.</p> <p>As at the date of this PDS, it is intended that, within the Trust's equities exposure, the weighting to Australian equities will be significantly greater than this asset class would represent if it were Market Capitalisation Weighted. The underlying funds in which the Trust may invest, its allocation with respect to each underlying fund, the target allocation range, the target allocation between equities and fixed interest, and the investment policies of the underlying funds, may be changed at any time by Dimensional. The Trust may also gain exposure by investing directly in securities that would fall within each asset class set out above as determined by Dimensional. Please refer to Dimensional's website at <a href="http://www.dimensional.com.au">www.dimensional.com.au</a> for updated asset allocation information.</p> <p>The Trust may lend securities for the purpose of generating additional income. The Trust may gain some or all of its market exposure by investing in other funds managed by Dimensional or its affiliates (including other Dimensional Wholesale Trusts).</p> <p>Members of the Dimensional Group generally will undertake the day-to-day trading of the securities, and on occasion may also make investment decisions, in their respective geographic regions under delegated authority from Dimensional.</p>																									
<p><b>Minimum suggested timeframe</b></p>	<p>4+ years</p>																									

\* The Trust is expected to be fully invested. A portion of the portfolio may be allocated to cash for liquidity purposes. Please refer to the Additional Information Guide for further information.

<b>Summary risk level</b>	Medium to high The likelihood of the capital value of your investment going down over the short term is relatively high compared to funds investing only in lower-risk assets such as fixed interest assets or cash.
<b>Change to Trust details</b>	Dimensional has the right to close or terminate the Trust and change the Trust's investment return objective, asset allocation and strategies at any time, without prior notice in some cases. Dimensional will inform investors of any material changes as required by law.

! You should read the important information about how we invest your money, including the extent to which labour standards or environmental, social or ethical considerations are taken into account in the selection, retention or realisation of investments relating to the Trust, liquidity management, implementation of the Trust's strategy, and borrowing, before making a decision. Go to section 4 of the Additional Information Guide located at [www.dimensional.com.au/other/product-disclosure-statement.aspx](http://www.dimensional.com.au/other/product-disclosure-statement.aspx). The material relating to this may change between the time when you read this PDS and the day when you sign the application form.

## 6. FEES AND COSTS

### DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs. You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask the fund or your financial adviser.

### TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission ('ASIC') website ([www.moneysmart.gov.au](http://www.moneysmart.gov.au)) has a managed investment fee calculator to help you check out different fee options.

### Fees and costs of the Trust

This section provides summary information about the main fees and costs that you may be charged. These fees and costs may be deducted from your account, from the returns on your investment or from the Trust's assets as a whole.

You should read all the information about fees and costs because it is important to understand their impact on your investment. You can also use this information to compare the fees and costs with those of other investment funds.

Type of Fee or Cost	Amount
<b>Fees when your money moves in or out of the fund<sup>1</sup></b>	
Establishment fee	Nil
Contribution fee	Nil
Withdrawal fee	Nil
Exit fee	Nil
<b>Management costs</b>	
The fees and costs for managing your investment	0.46% per annum <sup>2</sup>

1. You may incur a Transaction Costs Allowance (also known as a buy-sell spread) when your money moves in or out of the Trust. The current Transaction Costs Allowance is +0.10% on entry and -0.10% on exit as at the date of this PDS. Where applicable, any Transaction Costs Allowance is paid to the Trust, and is not a fee paid to Dimensional. Please refer to 'Transaction costs allowance' for more information.
2. The amount of this fee can be negotiated if you are a wholesale client under the Corporations Act.

### Management costs

Dimensional charges management costs for managing and administering the Trust which are payable out of the assets of the Trust. The management costs include Dimensional's management fee and expense recoveries, but exclude any abnormal expenses, some transaction costs and government charges. Where the Trust invests in an underlying Dimensional group fund, the management costs include the management costs of the underlying fund. However, should the Trust invest operating cash balances or cash collateral from securities lending arrangements in Dimensional group funds, the management costs of that investment will be an additional cost to the Trust.

The management costs include goods and services tax (GST) after taking into account any expected reduced input tax credits.

## Fees may be changed

Dimensional has the right to increase the management fee for the Trust up to the limit set out in the Constitution of 1.00% (not including GST) per annum without obtaining the consent of unit holders, but will give unit holders 30 days' advance written notice of any increase in the management costs of the Trust.

## Transaction costs allowance

The Trust is required to pay transaction costs such as brokerage when it buys or sells investments. Dimensional may pass the transaction costs on to you, by adding or subtracting the estimate of these costs (the Transaction Costs Allowance) to applications or withdrawals (including switches) you make, so that existing investors do not bear the transaction costs of persons entering and exiting the Trust. Where applicable, the Transaction Costs Allowance is paid to the Trust, and is not a fee paid to Dimensional. The current Transaction Costs Allowance is up to a cap of 0.35% of the amount invested or withdrawn. For example, if you invested \$50,000 you would be charged a Transaction Costs Allowance of up to \$175. Dimensional may vary the Transaction Costs Allowance up to the value of the cap at any time and prior notice will not ordinarily be provided. Updated information on Transaction Cost Allowances can be obtained from [www.dimensional.com.au](http://www.dimensional.com.au) or your Investor Service.

## Example of annual fees and costs

This table gives an example of how the fees and costs for the Trust can affect your investment over a one-year period. You should use this table to compare this product with other managed investment products.

EXAMPLE – Dimensional World Allocation 50/50 Trust		Balance of \$1,000,000 with a contribution of \$5,000 during the year
Contribution fee	Nil	0
PLUS Management costs	0.46% p.a.	And, for every \$1,000,000 you have in the fund you will be charged \$4,600 each year.
EQUALS Cost of fund		If you had an investment of \$1,000,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees of \$4,600 <sup>2</sup> . <b>What it costs will depend on the fees you negotiate with your fund or financial adviser.</b>

1. Assumes that the \$5,000 investment occurs on the last business day of the year.
2. The contribution fee is nil and thus an additional investment does not incur any extra fees. Please note this is an example only. In practice your actual investment balance will vary daily and the actual management costs charged, which are based on the value of the Trust, will therefore also vary daily. The calculation also assumes no abnormal expenses have been incurred. You may also incur transaction costs when you invest in or withdraw from the Trust. Please refer to section 5 of the Additional Information Guide for more information (! See below).

! You should read the more detailed information about fees and costs generally before making a decision. Go to section 5 of the Additional Information Guide located at [www.dimensional.com.au/other/product-disclosure-statement.aspx](http://www.dimensional.com.au/other/product-disclosure-statement.aspx). The more detailed information about fees and costs generally may change between the time when you read this PDS and the day when you sign the application form.

**Please note:** If you consult a financial adviser, additional fees may be paid by you. You should refer to the statement of advice that will be provided by your financial adviser, which sets out the details of these fees (if any).

## 7. HOW MANAGED INVESTMENT SCHEMES ARE TAXED

**Please note:** Investing in a managed investment scheme is likely to have tax consequences. You are strongly advised to seek your own professional tax advice.

Managed investment schemes do not pay tax on behalf of investors, and as an investor you will be assessed for tax, depending on your circumstances, on your share of any income and capital gains generated by the Trust.

! You should read the important information about taxation matters relating to the Trust and managed investment schemes generally before making a decision. Go to section 6 of the Additional Information Guide located at [www.dimensional.com.au/other/product-disclosure-statement.aspx](http://www.dimensional.com.au/other/product-disclosure-statement.aspx). The material relating to taxation matters may change between the time when you read this PDS and the day when you sign the application form.

## 8. HOW TO APPLY

### How to invest in the Trust

To invest directly in the Trust:

1. Read this PDS and the Additional Information Guide;
2. Complete and sign the application form for this Trust; and
3. Send the application form to the Unit Registry together with your application money and Identification Information as applicable.

Facsimile instructions will not be accepted for initial applications. If you are an existing investor and wish to increase your investment, please refer to section 1 of the Additional Information Guide for information on how to make an additional investment.

If you are investing through an Investor Service, you must complete the documents the operator of the service requires.

### Cooling off period

If you are a 'retail client' as defined in the Corporations Act, you have a 14 day cooling off period, in relation to initial and additional investments, in which to decide whether to proceed with the investment. Retail clients are, generally, clients who have invested less than \$500,000 and are not 'professional investors' as defined in the Corporations Act or other types of wholesale clients.

The 14 day period commences on the earlier of the date you receive the transaction confirmation (if applicable) or five business days after the units are issued. Within this period, you may withdraw your investment by writing to the Unit Registry at the contact details set out in this PDS or in any other way specified in the Corporations Regulations. The letter must include the following details: full name, address, Trust(s), amounts invested and, if known, account number with Dimensional and date of deposit.

The amount returned may be less than the amount invested. The amount you receive will be based on the withdrawal price calculated with reference to the time Dimensional receives your written request to withdraw your investment, subject to adjustments permitted under the Corporations Act, including deductions for any non-refundable tax or duty paid or payable relating to the investment and its withdrawal.

As the amount refunded may be greater or less than the amount initially invested, there may be tax implications. Cooling off rights do not apply to distribution reinvestments, to switching between Trusts or classes of units in the same Trust, where you have exercised any of your rights under the terms applicable to the units or where the Trust is illiquid.

Cooling off rights do not apply if you are investing through an Investor Service. You should contact the operator of the Investor Service to determine what cooling off rights you may have.

### Complaints

If you are investing through an Investor Service and you have any concerns or complaints regarding your investment, please contact your Investor Service.

If you have invested directly in the Trust and you have any concerns or complaints about the Trust or the services provided to you by Dimensional, you can call or write to Dimensional (for the attention of the Compliance Manager) at the contact details for Dimensional set out in this PDS. Dimensional will provide you with all reasonable assistance and information that you may require for the purpose of making a complaint and to assist you in understanding Dimensional's complaints handling procedures. Dimensional aims to provide a formal response within 30 days of receipt of the complaint.

Dimensional is a member of the Financial Ombudsman Service (FOS), an external industry dispute resolution scheme. If you are not satisfied with Dimensional's response to your complaint, you can contact FOS. Its address is GPO Box 3, Melbourne, Victoria 3001. The telephone number for FOS is 1300 78 08 08 for the cost of a local call. FOS has the discretion to exclude a complaint by a person who is not a retail client.

### Privacy

Dimensional is committed to protecting the privacy of your personal information. Dimensional collects personal information in the application form, and may collect additional personal information in managing your investment account and providing this product to you. If you do not provide the information in the application form to Dimensional, we may not be able to process or accept your application.

Dimensional's privacy policy states how Dimensional manages personal information. You can obtain a copy from Dimensional's website [www.dimensional.com.au](http://www.dimensional.com.au) or by telephoning or writing to Dimensional. You may contact Dimensional at any time with questions or concerns about privacy, or to request access to your personal information held by Dimensional, or to correct or update the information. For information as to how Citigroup Pty Limited (as Unit Registry) handles, stores, uses and discloses personal information please see its Privacy Policy available at [www.citi.com.au/privacy](http://www.citi.com.au/privacy).
