9. Other information

This Product Disclosure Statement (**PDS**) is a summary of significant information about the Macquarie True Index International Equities Fund (**Fund**). It contains a number of references to additional important information contained in a separate information booklet (**Information Booklet**). This information forms part of the PDS and you should read the Information Booklet together with this PDS before making a decision to invest in the Fund. The information in this PDS and the Information Booklet may change from time to time. Where information that changes is not materially adverse to investors, we may update this information by updating the relevant document or by publishing an update at macquarieim.com/pds.

You can access a copy of the latest version of this PDS, the Information Booklet, the Target Market Determination (**TMD**) for the Fund and any updated information free of charge from our website or by contacting us.

The information provided in this PDS and the Information Booklet is general information only and does not take account of your personal financial situation or needs. You should obtain your own financial advice tailored to your personal circumstances.

This offer is only open to persons receiving this PDS and the Information Booklet within Australia and New Zealand or any other jurisdiction approved by us.

Other than Macquarie Bank Limited ABN 46 008 583 542 (**Macquarie Bank**), any Macquarie Group entity noted in this material is not an authorised deposit-taking institution for the purposes of the Banking Act 1959 (Commonwealth of Australia). The obligations of these other Macquarie Group entities do not represent deposits or other liabilities of Macquarie Bank. Macquarie Bank does not guarantee or otherwise provide assurance in respect of the obligations of these other Macquarie Group entities. In addition, (a) the investor is subject to investment risk including possible delays in repayment and loss of income and principal invested, and (b) none of Macquarie Bank or any other Macquarie Group entity guarantees any particular rate of return on or the performance of the investment, nor do they guarantee repayment of capital in respect of the investment.

Unless stated otherwise, all references to 'dollars' or '\$' herein refer to Australian dollars.

Warning statement for New Zealand investors

- a) This offer to New Zealand investors is a regulated offer made under Australian and New Zealand law. In Australia, this is Chapter 8 of the Corporations Act 2001 (Aust) and regulations made under that Act. In New Zealand, this is sub-part 6 of Part 9 of the Financial Markets Conduct Act 2013 and Part 9 of the Financial Markets Conduct Regulations 2014.
- b) This offer and the content of the PDS and Information Booklet are principally governed by Australian rather than New Zealand law. In the main, the Corporations Act 2001 (Aust) and the regulations made under that Act set out how the offer must be made.
- c) There are differences in how financial products are regulated under Australian law. For example, the disclosure of fees for managed investment schemes is different under the Australian regime.
- d) The rights, remedies and compensation arrangements available to New Zealand investors in Australian financial products may differ from the rights, remedies and compensation arrangements for New Zealand financial products.
- e) Both the Australian and New Zealand financial markets regulators have enforcement responsibilities in relation to this offer. If you need to make a complaint about this offer, please contact the Financial Markets Authority, New Zealand (<http://www.fma.govt.nz>). The Australian and New Zealand regulators will work together to settle your complaint.
- f) The taxation treatment of Australian financial products is not the same as for New Zealand financial products.
- g) If you are uncertain about whether this investment is appropriate for you, you should seek the advice of a financial advice provider.
- h) The offer may involve a currency exchange risk. The currency for the financial products is not New Zealand dollars. The value of the financial products will go up or down according to changes in the exchange rate between that currency and New Zealand dollars. These changes may be significant.
- i) If you expect the financial products to pay any amounts in a currency that is not New Zealand dollars, you may incur significant fees in having the funds credited to a bank account in New Zealand in New Zealand dollars.*
- j) The dispute resolution process described in the Information Booklet is available only in Australia and is not available in New Zealand.

* Redemptions and distributions of income will only be paid in Australian dollars to an Australian bank account.

Macquarie True Index International Equities Fund

Product Disclosure Statement – 2 April 2024

1. About Macquarie Investment Management Australia Limited

Macquarie Investment Management Australia Limited (**Macquarie, we, us, our**) is the responsible entity of the Fund. We are responsible for the investment decisions, management and administration of the Fund. We may delegate some of these duties, including investment management functions, to third parties. We have appointed Macquarie Investment Management Global Limited (ABN 90 086 159 060 AFSL 237843) (**Investment Manager**) as

the investment manager of the Fund. Both entities form part of Macquarie Asset Management, which is Macquarie Group's asset management business.

Macquarie Asset Management is an integrated asset manager across public and private markets offering a diverse range of capabilities including real assets, real estate, credit, and equities and multi-asset.

2. How the Macquarie True Index International Equities Fund work

The Fund is a unit trust registered under the Corporations Act 2001 (Cth) (**Corporations Act**) as a managed investment scheme. Each investor's investment amount is pooled and invested in the manner described in Section 5.

Investors acquire units in the Fund. A unit gives an investor a beneficial interest in the Fund's assets as a whole, but not an entitlement to, or interest in, any particular asset of the Fund.

The terms of the units, including an investor's rights and obligations, are set out in this PDS, the Information Booklet and the Fund's constitution (which we can provide to you on request). The constitution can be amended in certain circumstances. We can amend the constitution without your consent if we reasonably consider that the amendments will not adversely affect investors' rights. Otherwise, we must obtain the approval of the required number of unitholders at a meeting of unitholders (a resolution may bind you, regardless of how or whether you vote).

A reference in this PDS to '**Business Day**' means a day (other than a Saturday, Sunday, public holiday or bank holiday) on which banks are open for general banking business in Sydney.

Unit pricing

The price of a unit will generally be calculated each Business Day, and will be based on the value of the Fund's assets, less liabilities, divided by the number of units on issue (the **net asset value unit price**). The price of units will vary as the market value of the Fund's assets (including the swap) and liabilities rises or falls.

Application and redemption prices take into account our estimate of transaction costs (the **buy/sell spread**), and as a result, the application price will be higher than the net asset value unit price (by the amount of the buy spread), and the redemption price will be lower than the net asset value unit price (by the amount of the sell spread). See Section 6 for further details on the buy/sell spread.

How to invest and access your money

Making initial and additional investments in the Fund

Application cut-off time (Application Cut-off) ¹	Minimum initial investment amount ¹	Minimum additional investment amount ¹
2.00pm Sydney time on a Business Day	\$500,000	\$500

¹ Or as we determine otherwise.

You can apply to make an initial investment in the Fund by completing the application form accompanying this PDS (**Application**). Unless we agree otherwise, where we receive an Application (including any required identification documentation) completed and duly authorised to our satisfaction before the Application Cut-off on a Business Day, with funds received on the same day, you will generally receive the application price for that Business Day. Unless we agree otherwise, if we receive an Application (including any required identification documentation) completed and duly authorised to our satisfaction on a Business Day but after the Application Cut-off, or on

a non-Business Day, with funds received by the next Business Day, you will generally receive the application price for the next Business Day. Please note that we will not accept an Application until it has been completed and duly authorised to our satisfaction and we have received all required identification documentation.

For Electronic Funds Transfer (**EFT**)/bank transfer or Real Time Gross Settlement (**RTGS**), if funds are not received by us on the same Business Day that we receive the Application (if received before the Application Cut-off on a Business Day) or the next Business Day (if we received the Application after the Application Cut-off on a Business Day or a non-Business Day), then, unless we determine otherwise, the Application will not be accepted and you will need to notify us if you make the payment at a later date. Please refer to 'Paying your investment amount' in Section 2 of the Information Booklet for more information.

Applications made by direct debit may take up to four Business Days before the amount is invested and units are issued but may take longer in certain circumstances. If a direct debit fails, the Application will be rejected.

You can add to your investment at any time using BPAY, or by EFT/bank transfer or RTGS. Please refer to Section 2 of the Information Booklet for more information.

We may accept or reject an application (in whole or in part) at our discretion (without giving reasons). See Section 8 for more details on how to apply.

Redeeming your investment

Redemption cut-off time (Redemption Cut-off) ¹	Minimum balance amount ^{1,2}
12.00pm Sydney time on a Business Day	\$100,000

¹ Or as we determine otherwise.

² If acceptance of a redemption request will result in a balance of less than the minimum balance amount, we may either reject the redemption request or treat the redemption request as relating to your entire holding.

You can generally request redemption of all or part of your investment in the Fund by writing to us or by completing a redemption request form which you can download at [macquarie.com/redemptionform](https://www.macquarie.com/redemptionform).

Alternatively, you can provide a signed request specifying the account name, the Fund name, the amount or number of units to be withdrawn and bank details. You can send your redemption request by email, mail or such other method agreed by us.

Where we receive a redemption request, completed and duly authorised to our satisfaction, before the Redemption Cut-off on a Business Day, investors will generally receive the redemption price calculated for that Business Day. Unless we agree otherwise, if we receive a redemption request, completed and duly authorised to our satisfaction, on a Business Day but after the Redemption Cut-off, or on a non-Business Day, we will generally treat the request as having been received before the Redemption Cut-off on the next Business Day. Please note that we will not treat a request as having been

received or accepted until it has been completed and duly authorised to our satisfaction. Before paying you the redemption amount, we may deduct from that amount any money you owe us in relation to your investment. Redemption proceeds will generally be paid within five Business Days after we accept the redemption request.

Potential delay of redemptions

In some circumstances, such as where there is a suspension of redemptions, investors may not be able to redeem their investment within the usual period or at all.

The Fund's constitution generally allows us 90 days following receipt of a redemption request to pay redemption proceeds. This may be extended in a number of circumstances including:

- if we have taken all reasonable steps to realise sufficient assets to satisfy a redemption request and are unable to do so due to one or more circumstances outside of our control, such as restricted or suspended trading in the market for an asset, and
- if, for a particular Business Day, we have received (or deem to have received) redemption requests for more than 10% of the units in the Fund, we may satisfy the redemption request in part but, if we do so, we must redeem the same proportion of units for all other redemption requests outstanding at that time.

Distributions

The Fund may receive income and gains from the underlying investments. We will generally seek to distribute any net income on a quarterly basis and any net realised capital gains at least once a year. Distributions will be calculated based on the net income and net realised capital gains of the Fund. However, distributions may include capital paid out of the Fund. Unit prices may fall as a result of the allocation of the distributions to unitholders.

You may elect to have your distributions paid directly into a nominated Australian financial institution account or to have your distributions reinvested as additional units. If you do not make an election, your distributions will be reinvested.

You should read the important information about **how the Fund works** including additional information on how to invest and access your money, unit pricing methodology and potential delay of redemptions before making a decision. Go to Section 2 of the Information Booklet at macquarieim.com/pds. The material relating to how the Fund works may change between the time when you read this statement and the day when you acquire the product.

3. Benefits of investing in the Macquarie True Index International Equities Fund

Significant features

- Aims to provide investors with pre-tax returns that equal the returns of the MSCI World ex-Australia ex-Tobacco Net Dividends Reinvested Index in Australian dollars (unhedged) (**Index**), known as '**True Indexing**'.

Significant benefits

- True Indexing aims to eliminate the potential tracking error of the Fund relative to the Index, while providing daily liquidity.
- No management fee while True Indexing applies.
- Access to the expertise provided by Macquarie Asset Management.

You should read the important information about **additional features and benefits of the Fund** before making a decision. Go to Section 3 of the Information Booklet at macquarieim.com/pds. The material relating to additional features and benefits of the Fund may change between the time when you read this statement and the day when you acquire the product.

4. Risks of managed investment schemes

All investments carry risk. Different investments carry different levels of risk, depending on the investment strategy and the underlying investments. Generally, the higher the potential return of an investment, the greater the risk (including the potential for loss and unit price variability over the short term). When you make an investment, you are accepting the risks of that investment. It is important to understand these risks before deciding to invest.

The level of risk that you are willing to accept will depend on a range of factors including your financial objectives, risk tolerance, age, investment timeframe and where other parts of your wealth are invested. The value of your investment and the returns from your investment will vary over time. Future returns may differ from past returns. We do not guarantee the returns of the Fund and you may lose some or all of the money that you have invested. The significant risks of the Fund are described below but other risks may also adversely affect the Fund. You should seek your own professional advice on the appropriateness of this investment for your particular circumstances and financial objectives.

Investment risk: The Fund has exposure to share markets. The risk of an investment in the Fund is higher than an investment in a typical bank account or fixed income investment. Amounts distributed to unitholders may fluctuate, as may the Fund's unit price, by material amounts over short periods.

Index risk: The Fund aims to provide investors with a return matching the Index return. Under True Indexing, the Index return provided by the Fund is independent of the Investment Manager's performance, and is subject to many risks including the general market risk of the securities making up the Index, specific risks from individual securities within the Index, all of which contribute to the volatility of the Index returns, and hence the returns paid to investors through the Fund.

Index provider risk: The Index provider may cease to publish the Index, increase the costs of using the Index or make other changes to the Index. In such situations, we may choose a replacement index for the Fund, cease providing True Indexing or terminate the Fund. Also, if the Index provider fails to provide data to us to enable us to calculate the unit price of the Fund and Swap payments or provides incorrect data, this may cause financial loss to the Fund or investors.

Market risk: Share markets can be volatile and have the potential to fall by large amounts over short periods of time. The performance of the Index and therefore the Fund is likely to have a broad correlation with share markets in general, and hence poor performance or losses in domestic and/or global share markets are likely to negatively impact the overall performance of the Index and therefore, the Fund.

Macquarie True Index International Equities Fund

Product Disclosure Statement – 2 April 2024

International investments risk: The Index contains a range of international securities, issued by companies that have exposure to a range of international economies. Global and country specific macroeconomic factors, geopolitical events, and government actions may impact the value of the Index's constituents, and hence the value of the Fund.

Currency risk: The Index has exposure to investments denominated in currencies other than Australian dollars. Currency risk is the risk that fluctuations in exchange rates impact the Australian dollar value of the foreign investments that the Index has exposure to.

Counterparty risk: The Fund has entered into a swap with Macquarie Financial Holdings Pty Limited (**Swap Counterparty**) under which the Swap Counterparty agrees to pay the Fund the Index return in exchange for the returns of the Fund's investment in an underlying portfolio of investments (**Swap**). Payment of returns from the Fund may be delayed if we are required to enforce our rights under the Swap. If the Swap Counterparty defaults on its obligations under the Swap, you may not receive the Index return. A management fee could be charged in these circumstances. In this event, you will be exposed to the performance of the underlying portfolio of investments. For further information, see 'Termination risk' and 'Risks when True Indexing no longer applies'.

Liquidity risk: Investments may be difficult or impossible to sell, either due to factors specific to that security, or to prevailing market conditions, resulting in a loss to the Fund and delays in redemptions.

Termination risk: True Indexing will cease where the Swap Counterparty terminates or defaults under the Swap or Macquarie terminates the Swap or the Fund. If True Indexing ceases, investors will no longer receive the Index return, and may also be required to pay management fees. Investors may not be able to find an equivalent investment in the market with which to replace their investment in the Fund.

Derivatives risk: Derivatives may be used to hedge existing exposures or to gain economic exposure. The use of derivatives may expose the Fund to risks including counterparty default, legal and documentation risk, and may have the effect of magnifying both gains and losses.

Force majeure risk: The Investment Manager, or issuers or counterparties of investments that the Fund holds or has exposure to may be impacted by an event beyond the control of that party which affects that party's ability to perform its obligations and may cause losses to the Fund. This includes events such as fire, flood, earthquakes, pandemic, war, terrorism and labour strikes.

Regulatory and legal risk: Laws and regulatory policy affecting registered managed investment schemes may change in the future and have an adverse impact on the Fund.

Risks when True Indexing no longer applies: In circumstances when True Indexing no longer applies, the Fund is no longer exposed to the Swap Counterparty through counterparty risk; however, investors become exposed to the risk of the underlying investments. The remainder of the above risks still apply (except for Index risk, Index provider risk and Termination risk). Additional risks also apply in these circumstances, including:

- **Concentration risk:** The risk that a single exposure causes the Fund to underperform the market and/or its peers or a large redemption or application significantly alters the exposure of the Fund to particular investments, sectors or asset classes due to security sales or purchases required.
- **Manager risk:** The risk that the Investment Manager's performance is unfavourable, either in an absolute sense, or relative to the Index.
- **Default risk:** The risk that a counterparty to the Fund, such as a broker, derivatives counterparty, or issuer, fails to meet a contractual obligation and causes financial loss to the underlying investments.

5. How we invest your money

You should consider the likely investment return, the risks involved and your investment timeframe when deciding whether to invest in the Fund.

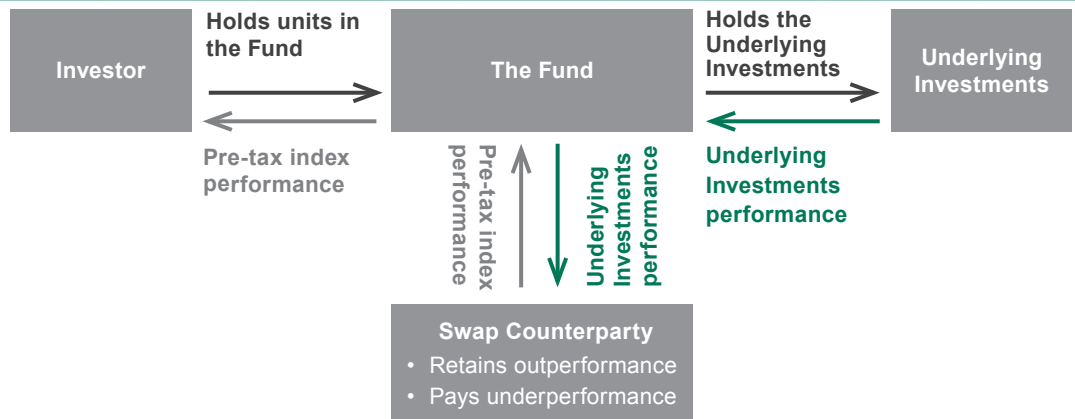

Macquarie True Index International Equities Fund

Fund objective	The Fund provides exposure to the performance of the MSCI World ex-Australia ex-Tobacco Net Dividends Reinvested Index in Australian dollars (unhedged) (Index) and is designed to generate a return equal to the Index returns (True Indexing).
Description of the Fund	<p>True Indexing is designed to result in pre-tax returns for investors that equal the returns provided by the Index. The Fund achieves this by:</p> <p>a) investing in shares, derivatives (including options, futures, warrants and forwards) and cash, either directly or through underlying funds that are managed by members of the Macquarie Group (Underlying Investments) with the aim of providing exposure that closely resembles the exposure of the Index, and</p> <p>b) entering into a swap agreement with Macquarie Financial Holdings Pty Limited (Swap Counterparty). If the Underlying Investments outperform the Index, the Swap Counterparty receives this outperformance. If the Underlying Investments underperform the Index, the Swap Counterparty compensates the Fund to the extent of the underperformance.</p> <p>These arrangements enable the Fund to provide True Indexing regardless of the performance of the Underlying Investments.</p>

Macquarie True Index International Equities Fund

Description of the Fund

(continued)

Asset allocation	International shares: 100% ¹						
Index	MSCI World ex-Australia ex-Tobacco Net Dividends Reinvested Index in Australian dollars (unhedged)						
Suggested minimum investment timeframe	Three years						
Inception date	29 January 2007						
Standard Risk Measure (SRM)	1 Very low	2 Low	3 Low to medium	4 Medium	5 Medium to high	6 High	7 Very high
	We have calculated the SRM based on industry guidance. Please note that the SRM is not a complete assessment of all forms of investment risk. Go to Section 5 of the Information Booklet for more information. Refer to Section 4 for more information on the risks of an investment in the Fund.						
Target investors	The Fund may be suitable for investors who are looking for an investment with the objective of the Fund listed above and are prepared to accept the risks of the Fund set out in Section 4. A Target Market Determination (TMD) for the Fund, which includes a description of the class of consumers for whom the Fund is likely to be consistent with their objectives, financial situation and needs, is available at macquarieim.com/TMD .						
Changes to the Fund	We may make changes to the Fund from time to time or terminate the Fund. We will provide such notice as required by the Corporations Act or constitution of the Fund.						
Fund performance	Performance history information can be obtained from our website at macquarie.com.au/performance or by calling Client Service. Past performance is not a reliable indicator of future returns, which can differ materially.						

¹ The asset class refers to the asset class to which the Fund has economic exposure. A portion of the Underlying Investments may be allocated to cash for liquidity purposes.

 You should read the important information about **how the Investment Manager invests your money** including additional information about True Indexing, ethical investments, switching and calculating the performance of the Fund before making a decision. Go to Section 5 of the Information Booklet at macquarieim.com/pds. The material relating to how the Investment Manager invests your money may change between the time when you read this statement and the day when you acquire the product.

6. Fees and other costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns. For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the Fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** Moneysmart website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

This section shows fees and other costs that you may be charged. These fees and costs may be deducted from your investment, from the returns on your investment or from the assets of the managed investment scheme as a whole. Taxes are set out in another part of this PDS.

You should read all of the information about fees and other costs as it is important to understand their impact on your investment. You can use this information to compare costs between different simple managed investment schemes.

Macquarie True Index International Equities Fund

Product Disclosure Statement – 2 April 2024

Fees and costs summary – Macquarie True Index International Equities Fund

Type of fee or cost	Amount	How and when paid
Ongoing annual fees and costs		
Management fees and costs The fees and costs for managing your investment	0% pa comprising: Management fee ¹ – 0% pa of the net asset value of the Fund Fund expenses and indirect costs ^{2,3} – 0% pa of the net asset value of the Fund	While True Indexing applies: <ul style="list-style-type: none"> No management fee is charged. Fund expenses and indirect costs are not borne by the Fund but instead, reduce the return payable to the Swap Counterparty under the Swap. If True Indexing ever ceases to apply: <ul style="list-style-type: none"> A management fee (accrued daily and payable quarterly, in arrears, generally within 30 days of the end of the quarter) would be deducted from the Fund's assets and reflected in the Fund's unit price. Fund expenses and indirect costs may be deducted from the Fund's assets or an underlying fund's assets and reflected in the Fund's unit price. They would be paid when incurred. See 'Additional explanation of fees and costs' below for more information.
Performance fees Amounts deducted from your investment in relation to the performance of the product	Fund – Not applicable Underlying funds – Not applicable	Not applicable
Transaction costs The costs incurred by the Fund when buying or selling assets ³	0% pa of the net asset value of the Fund	While True Indexing applies, transaction costs are not borne by the Fund but, instead, reduce the return payable to the Swap Counterparty under the Swap. If True Indexing ceases to apply, transaction costs would be deducted from the Fund's assets or an underlying fund's assets and reflected in the Fund's unit price. They would be generally paid when incurred. See 'Additional explanation of fees and costs' below for more information.
Member activity related fees and costs (fees for services or when your money moves in or out of the Fund)		
Establishment fee The fee to open your investment	Not applicable	Not applicable
Contribution fee The fee on each amount contributed to your investment	Not applicable	Not applicable
Buy/Sell spread An amount deducted from your investment representing costs incurred in transactions by the Fund	As at the date of preparation of this PDS, is: <ul style="list-style-type: none"> 0.11% added to the net asset value unit price on application, and 0.10% subtracted from the net asset value unit price on redemption, but we may vary this from time to time. Latest buy/sell spreads are posted at macquarie.com.au/daily_spreads .	Buy/Sell spreads may apply to the Fund. The buy/sell spread is reflected in the application price and redemption price respectively and is not separately charged to the investor. Refer to 'Buy/Sell spread' in Section 6 of the Information Booklet for more information.
Withdrawal fee The fee on each amount you take out of your investment	Not applicable	Not applicable
Exit fee The fee to close your investment	Not applicable	Not applicable
Switching fee The fee for changing investment options	Not applicable	Not applicable

Unless stated otherwise, all fees are shown inclusive of GST and net of any input tax credits (ITCs) and/or reduced input tax credits (RITCs) and are shown without any other adjustment in relation to any tax deduction available to us. The proportion of GST paid on the fees that can be recovered by the Fund as RITCs or otherwise varies. The fees paid by the Fund will equal the rates disclosed in this section (inclusive of GST, net of ITCs and/or RITCs) regardless of the rate of GST recovery in any period.

¹ May be negotiated if you are a wholesale client under the Corporations Act and subject to compliance with applicable regulatory requirements. Refer to 'Differential fees' below for more information.

² While True Indexing applies, fund expenses and indirect costs are not borne by the Fund. Refer to Section 6 of the Information Booklet for more information.

³ Based on historical fees and costs. Past fees and costs may not be a reliable indicator of future fees and costs. Actual fees and costs may vary significantly each year. See 'Transaction costs' below and Section 6 of the Information Booklet for more information.

Example of annual fees and costs for the Fund

This table gives an example of how the ongoing annual fees and costs in the Fund can affect your investment over a 1-year period. You should use this table to compare the Fund with other products offered by managed investment schemes.

Example		Balance of \$550,000 with a contribution of \$5,000 during year
Contribution fees	Not applicable	For every additional \$5,000 you put in, you will be charged \$0.
PLUS Management fees and costs	0% pa ¹	And , for every \$550,000 you have in the Fund, you will be charged or have deducted from your investment \$0 each year.
PLUS Performance fees	Not applicable	And , you will be charged or have deducted from your investment \$0 in performance fees each year.
PLUS Transaction costs ²	0% pa	And , you will be charged or have deducted from your investment \$0 in transaction costs.
EQUALS Cost of Fund		If you had an investment of \$550,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of \$0. What it costs you will depend on the fees you may be able to negotiate.

¹ Calculated using the fees and past costs as a percentage of the average net asset value of the Fund for the previous financial year. It is not a forecast of the fees and costs, which may be higher or lower in the future.

² Calculated using the costs as a percentage of the average net asset value of the Fund for the previous financial year. It is not a forecast of the costs, which may be higher or lower in the future.

Additional explanation of fees and costs

Management fees and costs applicable where True Indexing no longer applies

If True Indexing ceases to apply, a management fee of 0.300% pa of the net asset value (inclusive of the net impact of GST) would be charged and fund expenses and indirect costs may also be recovered from the Fund or an underlying fund.

Transaction costs

While True Indexing applies, transaction costs incurred by the Fund or an underlying fund that the Fund invests in (such as brokerage, clearing costs, hedging costs, settlement costs, transaction fees, taxes and stamp duty) will not reduce the return on the Fund as a result of True Indexing. These costs will reduce the return payable to the Swap Counterparty under the Swap.

If True Indexing ceases to apply, transaction costs may also be recovered from the Fund or an underlying fund.

While True Indexing applies, the buy/sell spread charged to investors offsets some or all of the transaction costs borne by the Swap Counterparty under a Swap, which may include costs incurred as part of the ordinary trading activities of the Fund rather than the particular application or redemption. We may vary the buy/sell spread from time to time, including by material amounts. We will not provide prior notice of a change to the buy/sell spread. Please check macquarie.com.au/daily_spreads for the latest buy/sell spread prior to applying for, or redeeming, units in the Fund.

The gross transaction costs for the Fund for the previous financial year were nil as a result of True Indexing. The transaction costs shown in the 'Fees and costs summary' table above are net of any buy/sell spread that was charged by the Fund for that period. When the transaction costs exceed the amount of the buy/sell spread charged, the transaction costs are not fully recovered and so are an additional cost to the Swap Counterparty (if True Indexing applies) or to the Fund (if True Indexing does not apply).

The transaction costs disclosed (including the buy/sell spread for the Fund) are based on information available as at the date of preparation of this PDS and assumptions that we consider reasonable. The transaction cost amounts are not forecasts of the total transaction costs in the future. The amount of transaction costs, including buy/sell spreads, may be higher or lower in the future. Refer to the Information Booklet for further details.

Differential fees

We, or the Investment Manager, may negotiate with wholesale clients (as defined in the Corporations Act) differential fees, payments or rebates as permitted by the Corporations Act and ASIC relief. There is no set manner or method of negotiating fees, payments or rebates. Refer to 'Differential fees' in Section 6 of the Information Booklet and contact Client Service for more information. Client Service contact details are stated on the front page of the PDS.

Tax

Refer to Section 7 for information about tax.

Information about fee changes

We may change the amount of fees without your consent (up to any maximum that is allowed under the Fund's constitution). If we increase the fees, we will provide you with at least 30 days written advance notice. We cannot charge more than the constitution of the Fund allows, unless we obtain investors' approval to do so. Under the constitution, the maximum fees (exclusive of the net effect of GST) are:

- a maximum contribution fee of 5% of the investment amount
- a maximum redemption fee of 5% of the redemption amount
- a maximum management fee of 5% pa of the value of the assets of the Fund, and
- a maximum switching fee of 5% of the value of the investment switched.

Additional fees may be paid by you to your financial adviser. You should refer to the statement of advice provided by your adviser for details of those fees.

You should read the important information about **fees and costs** including additional services and charges before making a decision. Go to Section 6 of the Information Booklet at macquarieim.com/pds. The material relating to fees and costs may change between the time when you read this statement and the day when you acquire the product.

Macquarie True Index International Equities Fund

Product Disclosure Statement – 2 April 2024

7. How managed investment schemes are taxed

Investing in a registered managed investment scheme is likely to have tax consequences. The information contained in the following summary is intended to be of a general nature only. It does not constitute tax advice and should not be relied on as such. You are strongly advised to seek independent professional advice on the tax consequences of an investment in the Fund, based on your particular circumstances, before making an investment decision.

The Fund has elected into the Attribution Managed Investment Trust (**AMIT**) regime. Under the AMIT regime, investors will be attributed (and assessed for tax) on amounts of income (including any capital gains) on a fair and reasonable basis for each relevant financial year. Where the Fund is an AMIT, capital gains or income arising from a significant redemption can be distributed to the redeeming investor on a fair and reasonable basis. The objective is to ensure that remaining investors are not materially adversely affected by the redemption. A significant redemption

is one where an investor's redemptions for the financial year are 5% or more of the Fund's net asset value. Where the Fund is an AMIT, a significant redemption may be less than 5% of the Fund's net asset value where we believe it is fair and reasonable in the circumstances.

If the Fund does not elect into the AMIT regime, investors in the Fund will be presently entitled to the entire amount of the income of the Fund (including any capital gains) for each relevant financial year and will be assessed for tax on their share of the net income of the Fund (including any capital gains) for a financial year. Where the Fund is not an AMIT, capital gains or income arising from securities sold to meet a significant redemption can also be distributed to the redeeming investor to ensure that remaining investors are not materially adversely affected by the redemption (this is subject to the 5% of net asset value threshold).

The Fund should not be liable for Australian income tax under present income tax legislation.

You should read the important information about the **additional taxation matters** relating to managed investment schemes before making a decision. Go to Section 7 of the Information Booklet at [macquarieim.com/pds](https://www.macquarieim.com/pds). The material relating to the additional taxation matters relating to managed investment schemes may change between the time when you read this statement and the day when you acquire the product.

8. How to apply

You should read this PDS, together with the information contained in the Information Booklet, available at [macquarieim.com/pds](https://www.macquarieim.com/pds).

Direct investors should complete the application form that accompanies this PDS. You can send the completed application form and required identification documentation to us by mail or email. If you email your identification documentation to us, we may request certified copies of the originals to follow in the mail for our records and your account may not be opened until they have been received.

If you are an indirect investor investing through an investor directed portfolio service (**IDPS**), please contact your financial adviser or IDPS operator for details of how to invest in the Fund.

Cooling-off period

If you are a 'retail client' under the Corporations Act, you can terminate your investment in the Fund during the period of 14 days starting on the earlier of the time when you receive confirmation of issue of units in the Fund to you or the end of the fifth Business Day after the units are issued to you. Your refund will be processed as a redemption and the redemption value will be reduced or increased for market movements since your investment. We will also deduct any tax or duty that is paid or payable by the Fund, any reasonable administration or transaction costs incurred as well as the sell spread.

As a result, the amount returned to you may be less than your original investment. To exercise your cooling-off rights, please write to Client Service.

Enquiries and complaints

You may contact your financial adviser or Client Service if you have any enquiries or complaints. If you have a complaint, please contact us and we will do our best to resolve any matter quickly and fairly. Written complaints can be sent to us at:

The Complaints Officer
Macquarie Investment Management Australia Limited
PO Box R1723
Royal Exchange NSW 1225 Australia

You should read the important information about **dispute resolution** before making a decision. Go to Section 8 of the Information Booklet at [macquarieim.com/pds](https://www.macquarieim.com/pds). The material relating to dispute resolution may change between the time when you read this statement and the day when you acquire the product.

9. Other information

You should read the important information about **our legal relationship with you** before making a decision. Go to Section 9 of the Information Booklet at [macquarieim.com/pds](https://www.macquarieim.com/pds). The material relating to our legal relationship with you may change between the time when you read this statement and the day when you acquire the product.
